

# KODU in the KLASROOM & TeachMeet

Wednesday 13<sup>th</sup> July  
9:00 – 15:30

Hartsdown Technology College,  
Margate, Kent

Run by Nicki Maddams  
Microsoft Evangelist & Aspiring AST

Followed by a TeachMeet to share  
ideas & best practice

## About this Seminar

Kodu is a new, free, programming environment from Microsoft which is colourful and engaging for learners of all ages. This seminar gives an introduction to how this can be used to meet the needs of the secondary ICT curriculum.

The seminar will give delegates a chance to learn the basic skills of using Kodu to create a simple game and will then move onto game design and problem solving in the afternoon. A Scheme of Work for teaching Kodu to Key Stage 3 will also be supplied for delegates to use in their own schools.

The seminar is free (funded by Microsoft) and lunch will be provided along with refreshments throughout the day.

The day will close with a TeachMeet, giving willing delegates an opportunity to share best practice within their ICT classrooms in the form of short presentations of either 2 or 7 minutes.

## Trainer Information

Nicki Maddams is an Innovative Teacher award winner working at Hartsdown Technology College in Margate, Kent. She has delivered a presentation at Microsoft's Innovative Education Forum and ran a seminar in January for the SSAT, both on using Kodu.

## Booking Info

Places are issued on a first come first served basis and there are a maximum of 20 places available.

Booking is available online at:
